ABOUT SIMS

The institute was established with the motto of “Prosperity through Innovative Management” by the Founder Chairman Shri. MJF Ln. Leo Muthu. It is one of the renowned B-Schools in Tamil Nadu. The Department of Management was started under the Sri Sairam Engineering College in the year 1998 to cater to the growing need for management graduates across the country. The institution gained the status of autonomous institution which offers the post graduate programme leading to the award of MBA degree by the Anna University, approved by AICTE and the government of Tamil Nadu. The institution is accredited with A+ grade by NAAC and NBA. The institute has participated in NIFR ranking for the past four years. AICTE-CII survey has rated our institution with Platinum category for the past Seven years. Also institute has bagged more than 100 university ranks and two GOLD Medals. The department is well equipped with modern facilities such as syndicate room, seminar hall, computer centre, department library, audio and video facilities and a central library with latest books, national and international journals. The highlights of the institute are that, it has been rated with prestigious A3 League by Business Standard during 2021, also categorized as Top Private Institute by Times B-School Survey 2021, Business Today India's Best B-School survey rated our institute among Top 150 B-Schools, Career 360 Magazine has rated our institution as one of the Top 100 B-Schools in India for 2019. Our institution is collaborated with reputed international universities viz., Universiti of Teknologi Petronas, Management Science University, University of Malaya, University of Jaffna, Eastern University of Srilanka on academic development activities. We engage our students in various societal development activities to provide them the overall exposure to world of business and management by regularly organizing National level seminars, International conferences, conduct Workshops and International Student Exchange programs. Faculty members are regularly participating in national and international events and visit many foreign Universities for international academic exposure. The institute also publish three Management Peer reviewed Journals for in-house and other institute scholars and faculty members.

ABOUT THE PROGRAMME

Quality in education could be the degree of excellence in imparting and acquisition of knowledge through teaching and learning. The programme is to develop the skills and quality of the teachers with the latest developments in information and communication technologies and to build effective teaching and evaluation techniques to build a better student community. The world is becoming more complex, year-after-year instead of generation-to-generation and the educational needs continue to shift from teaching and learning isolated skills and information within each content area, to teaching skills that enable students to solve complex problems across many areas. The unprecedented crisis of COVID-19 appears to have thrown an altogether new set of challenges before the academics and teaching professionals thus compelling them to look for novel, alternative mechanisms, and pedagogical tools. The students are expected to learn high-level skills such as how to access, evaluate, analyze, and synthesize vast quantities of information. Teachers are expected to meet the needs of all students and move them toward fulfillment of their individual potential even as they are pressured to prepare students for maximum performance on high stakes assessment tests that are the primary measure of student and institutional success. Technology can assist with these expectations and make teachers and their students more successful. This course orients the teachers for a technology-rich future and keeps up with change by adopting effective strategies that infuse lessons with appropriate technologies and teaching practices.

PROGRAMME OBJECTIVES

- To develop leadership qualities among teachers.
- To inculcate effective mentoring and counseling skills among the teaching fraternity.
- To make them set as a role model to the student community.
- To enable the Faculty of Higher Education to learn new pedagogic techniques
- To empower the Faculty with innovative teaching competencies, skills and attitudes.
- To provide the participants with experiential learning integrating ICT tools in teaching through group activities and interactions.
- To sensitize the participants towards issues and challenges in Higher education .

PROGRAMME OUTCOMES

Teachers will get to know online teaching & learning methods, platforms, tools, and resources. Teachers will identify reasons of why mentor mentee relationship remains with a gap. Various tips will be covered to identify techniques of better mentoring inter departments
